REDUCING HEALTHCARE INEQUALITIES FOR CHILDREN AND YOUNG PEOPLE

CORE20

The most deprived 20% of the national population as identified by the Index of Multiple Deprivation

The Core20PLUS5 approach is designed to support Integrated Care Systems to drive targeted action in healthcare inequalities improvement

Target population

CORE20 PLUS 5

PLUS

ICS-chosen population groups experiencing poorer-than-average health access, experience and/or outcomes, who may not be captured within the Core20 alone and would benefit from a tailored healthcare approach e.g. inclusion health groups

Key clinical areas of health inequalities

ASTHMA

Address over reliance on reliever medications and decrease the number of asthma attacks

•

DIABETES

Continuous Glucose

Monitors and insulin pumps
in the most deprived
quintiles and from ethnic
minority backgrounds &
increase proportion of
children and young people
with Type 2 diabetes

receiving annual health

checks

Increase access to Real-time

EPILEPSY

Increase access to epilepsy specialist nurses and ensure access in the first year of care for those with a learning disability or autism

ORAL HEALTH

Address the backlog for tooth extractions in hospital for under 10s

MENTAL HEALTH

Improve access rates to children and young people's mental health services for 0-17 year olds, for certain ethnic groups, age, gender and deprivation
