South East Branch

NEWSLETTER 2021-2022

Dear Members

I hope you are all keeping well in these tough and unprecedented times with an ongoing struggle to adapt to life with COVID 19 challenges. I am honoured to be able to play a small part in supporting the connection and continuing education in paediatric dentistry.

This coming year meetings will continue to take place in an online format (webinar), but we will aim to host our annual study day face to face (government guidance permitting).

The programme begins with **Dr. Michal Sobacz** on **Wednesday the 17th Nov 2021**. He is President of Polish Academy of Paediatric Dentistry, and a paediatric dental consultant who works in Warsaw, Poland. He is an international speaker and an author and co-author of papers in scientific journals, presenter on national and international paediatric dentistry and traumatology congresses. He conducts postgraduate training courses and educational programs in paediatric dentistry. He will share his experience in the management of dental trauma.

On **Wednesday the 26th Jan 2022**, **Mr Parm Singh** will share his expertise and skills in management of Ectopic Canines. He is a Professor of Orthodontics at the College of Medicine and Dentistry, Birmingham, where he is Course Director for the Master in Orthodontics and the Master in Clinical Orthodontics collaboration with the Vesta. He is an international speaker and leads several international orthodontic postgraduate training programs.

On **Wednesday the 23rd Feb 2022** **Dr. Nitha Naqvi**, revered and mightily accomplished consultant paediatric cardiologist based at the Royal Brompton Hospital will talk to us about management and care for paediatric patients with CHD. Being the current lead in paediatric echocardiography, she specialises in echocardiography, aortopathy, as well as Marfan syndrome. She also currently leads the paediatric cardiac network at RBH hospital.

The plan for the annual March Study day in 2022 will be confirmed closer to the time and with much notice as possible.

The final meeting of the year will be on **Monday the 16th May 2022** where we will combine our **AGM and the junior member's paper presentations** as our usual joint slot. Mina Vaidyanathan will be taking over the chair of the branch.

The online meeting to include the AGM links will be sent out prior to the meetings by the BSPD administrator to the SE Branch mailing list. Please encourage your colleagues and post graduate students to join us.

Ghaida Al-Jaddir
Chair BSPD South East Branch
October 2021

Notes from the Hon. Secretary:

I would like to thank our outgoing chair Mr David Baldwin for a wonderful couple of years! His hard work and dedication has been immense.

The meetings will continue to be held remotely. We will use Zoom platform this year for our webinars with a link sent in advance to members. Hopefully we can meet in person during our study day in March 2022 but we will keep you posted closer to the time and with as much notice as possible. I very much look forward to working with Ghaida, our new chair!

Please do not hesitate to contact me should you have any queries regarding our branch or programme for this year.

Monika Ivanova
Honorary Secretary
